

FROM ACTION TO IMPACT

THE CHALLENGE WE ARE FACING

- Our community is ageing, and more people are living with dementia. There is greater need for mental health support for people of all ages.
- Social care is underfunded, and the cost of living continues to rise. People want to live as independently as possible for as long as they can.
- Loneliness and isolation are made worse by ageing and physical and mental health challenges.

Jewish Care's five-year strategy: Altogether Stronger

Our ambition is to for every person in the Jewish community to feel confident and supported in taking control of their lives, to make informed choices and manage their wellbeing so that they can live with dignity, connection and purpose, whatever their age, health or circumstances.

OUR RESOURCES

- **People:** Our professional staff and trained volunteers.
- **Partnerships:** With families, health and social care providers and community organisations.
- **Estate:** Our care homes, community centres, housing and digital infrastructure.
- **Funding:** Voluntary donations, legacy gifts, self-funded care home residents and residents who receive contributions from local authorities.

Advice
and signposting

Community day centre and
dementia activities, Head Room
mental health programme

Mental health services
from age 11 upwards

Carer and family support
and social work

Residential homes
providing nursing, dementia
and end-of-life care

Retirement and assisted
living facilities

Lifelong learning and
volunteering opportunities

Awareness raising
and campaigning

OUR OUTCOMES: FOUR PILLARS OF CHANGE

Choice & Control

People in the Jewish community have the knowledge, skills and resilience to make informed choices, take control and have agency on their journey.

Health & Wellbeing

People in the Jewish community have their health needs met. They are better able to cope with mental and physical health challenges and experience improved wellbeing.

Connection

People in the Jewish community are able to engage meaningfully, helping them to feel less lonely or isolated, and feel part of a community.

Identity & Self-Worth

People in the Jewish community feel heard and understood. They feel comfortable to be themselves and receive support which is person-centred, and respects their identity, needs and wishes.

OUR IMPACT

By achieving these outcomes we will achieve our aim, for people in the Jewish community to lead better lives.

MEASUREMENT AND LEARNING

As a learning organisation, the impact of every act of care, every innovation, and every pound donated is monitored and evaluated to ensure it makes a measurable difference to people's lives.
